Fig 1: Observed rainfall during the month of August 2026

According to the available rainfall data for the month of August 2026 at the Department of Meteorology, near or above normal rainfall was reported in Western, Southern, Sabaragamuwa and Central provinces and some areas in Badulla, Batticaloa and Ampara districts. Below normal rainfall was reported in Northern, Northwestern and Northcentral Provinces and Trincomalee and Monaragala districts during the month.

Figure 1(A) shows the Observed Total rainfall (mm), 1(B) shows the Percent of Normal Rainfall(%) and 1(C) shows the August Rainfall Anomaly (mm) compared with long term average (1991-2020) during the month of August 2026.
